

CHICK BOOSTER

FOR BALANCED GROWTH

PRODUCT DESCRIPTION

A high nutrient and energy-dense ration formulated for protein and amino acids digestibility values with soluble carbohydrates to enhance the development of gastro intestinal tract and vital organs for faster growth and stronger immune system.

FEEDING RECOMMENDATION

Feed Program : 1 – 35 days of age
 ABW : 30g - 35g to 250g - 300g
 Quantity : Ad libitum

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	22.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	3.50%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

BABY STAG DEVELOPER

FOR INCREASED RESISTANCE

PRODUCT DESCRIPTION

This ration is formulated to provide sustainable protein and amino acids and more energy value to support the high demand of body development in response to expression of genomic potential.

FEEDING RECOMMENDATION

Feed Program : 31 days - 12 weeks
 (1 to 3 mos) of age
 ABW : 250g - 300g to
 600g - 800g
 Quantity : Ad libitum

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	20.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	3.50%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

STAG DEVELOPER

FOR IDEAL BODY FRAME

PRODUCT DESCRIPTION

A ration designed to support enhanced framing of skeletal and muscular system and the same time function as digestive tract conditioner to increase capacity of birds for adaptive metabolic activity.

FEEDING RECOMMENDATION

Feed Program : 12 – 24 weeks
 (3 – 6 mos) of age
 ABW : 600g - 800g to
 800g -1000g (4 mos)
 : 800g – 1000g to
 1.2 – 1.5 kg (6mos)
 Quantity : 50g - 70g per day

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	16.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	6.00%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

SALTO CONDITIONER

FOR AGILITY, STAMINA AND POWER

PRODUCT DESCRIPTION

A high protein and high energy ration formulated with unique amino acids profile and super supplements for excellent adaptive metabolic activity and precise nutrient timing.

FEEDING RECOMMENDATION

Feed Program : 8 mos and above
 ABW : 1.7 – 2.4 kgs
 Quantity : 40-50 g 2 x day at 50:50
 with grains/seeds/pulses

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	22.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	5.00%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

SALTO STAG CONDITIONER

WITH OPTIMATRIX

PRODUCT DESCRIPTION

A ration that is designed for the pre-conditioning stage of stags to increase the levels of minerals and amino acids utilization for better bone and muscle development. It contains fat-burning complex and bio-active peptides to increase muscle sensitivity. More importantly, the feed prepares the stags for heavier training.

FEEDING RECOMMENDATION

Feed Program : 8 mos to 11 mos
 Quantity : 50g 2x a day at
 50:50 ratio with grains

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	18.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	5.00%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

SPECIFICALLY DESIGNED
FOR STAGS

SALTO POWER PELLET

WITH HYPERFLEX

PRODUCT DESCRIPTION

A conditioning pellet that focuses on the burst of energy during the fight. It contains fat-burning properties for significant muscle development within 10-14 days (under normal condition) and support the reflexes during the fight. It is enriched with essential fatty acids for better skin integrity and sturdy glossy feathers.

FEEDING RECOMMENDATION

Feed Program : 16 mos and above
 Quantity : 50g 2x a day at
 50:50 ratio with grains

NUTRITIONAL FACTS GUARANTEED ANALYSIS

Crude Protein	NLT	18.00%
Crude Fat	NLT	3.00%
Crude Fiber	NMT	5.00%
Moisture	NMT	12.00%
Calcium		0.90 - 1.10%
Phosphorus	NLT	0.70%

SPECIFICALLY DESIGNED
FOR COCKS
